 In 1958 the families Suñer and Busquets founded a textile company and has thrived ever since. However, after the passing of both founders, under the leadership of the founders two sons, the textile company made a drastic turn of events and decided to dedicate its attention to the male clients, specifically the gay community.

In 2006 the brand •ES•Collection was 'erected' and has been ever since a huge success in gay fashion. Although the brand is considered exclusive, indeed thought to be somewhat expensive, it has over the years been a huge bestseller even reaching the straight man too. Having said that it's an expensive brand, but bear in mind that it's created and made in Barcelona, the textiles come from within Europe, as in Italy, France and Spain and the quality is of the highest level. Thus you have all the ingredients for an exclusive brand made for the quality expecting customer. The result is a brand of certain status and an absolute leader in the gay market. The clothing is casual wear, fitness wear, swimwear, underwear etc.etc.

A leader it became as well thanks to the many inventions this and other brands within this textile empire created. For example •ES•Collection was the inventor of the Padded swimwear, eliminating the 'sausage-look' you would have in regular swimwear e.g. when just emerging from the water. It displayed an attractive looking 'package' too...

It was also under their leadership that •ES•Collection came with molded textile, eliminating uncomfortable stitching and a more than comfortable fit for the male attributes. And then there was the U-Shape technology, and of course the

Push-Up technology. All these inventions together with the magnificent creations and the highest quality standards, made the company, after several years with additional brands, the true pioneers in the industry.

A couple of years after the launch of •ES•Collection, Addicted was born in 2009 and in 2017 ADFetish saw the light. Both brands followed in their big brothers footsteps and became, in their own name, world leaders; a true phenomena. Nowadays, everywhere you look, whether in the streets, at a pool, on a beach, in a gym or while partying, these brands are abundantly present and this thanks to the support and love they receive from their fans and the trust and confidence they put in these brands.

12 years ago, in the trendy area Eixample, Carrer del Consell de Cent, 218 in Barcelona the flag-store of •ES•Collection opened its doors and ever since it has been the place to go to for the latest creations of this designer wear. Several stores followed in Madrid, Valencia, Sitges and Ibiza and many franchise stores or store-in-stores and the online shops saw the light of day too and now •ES•Collection and it's brother brands are represented -literally- world wide.

 While visiting Barcelona and Sitges lately we came across a new hidden place: **La Cigalière de Sitges** opened its doors in March 2020 while unfortunately it was not the perfect time to start a new gay vacation spot. But as it is one of its kind we have decided to share our impressions:

Sitges is often compared to Saint Tropez in France. Situated 35 km south of Barcelona Sitges is also a Must Visit for Barcelona tourists. This former small fishing port has retained a crazy charm. You will love to get lost in these small streets. You will admire the typical architecture of the Maricel Palace and the walk on the Paseo will allow you to meet the eyes of the boys who you will then see on the terraces. Gay life in Sitges is amazing. Gay naturist or textile beaches or small wild coves, there is something for everyone. Bars, restaurants and dinner shows offer you a new opportunity to have fun and party every day. Many gay shops will offer you the possibility of shopping for all budgets.

Around Sitges, you can go hiking in the Garraf Natural Park enjoying the breathtaking views over the Mediterranean Sea. A stop at the Buddhist monastery is welcome after a walk in nature. Take advantage of your stay to discover the wine cellars of the Alt Penedès region and the local Cava. The archaeological sites and buildings in the Modernista (Art Deco) style are also worth a visit. A magnificent golf course and an equestrian center is nearby. Finally, you will be 35 minutes from two cities that deserve a visit, Barcelona the capital of the region offers endless possibilities and Tarragona the Roman will plunge you into a past full of surprises and entertainment thanks to the Port park Aventura World.

So far Sitges has lots of places to stay, drink, eat, party and discover. Brandnew is that from now on you will also find the first and first exclusively gay and naturist Resort in the region. In a peaceful environment, at the gates of a protected natural area, **La Cigalière de Sitges** is just a 15-minute drive through the vineyards of the lively seaside resort of Sitges. This resort offers an affordable place for all boys with the services of a guesthouse where wearing a swimsuit is not mandatory. Some of the guests like the freedom to be naked all the time, while others prefer to stay covered. On

site, whether you are a couple or single, you can practice sports or fun. The exchanges begin at the edge of the heated swimming pool or in the jacuzzi and continue on the private tennis court or on the pétanque court. After a workout in the gym or a game of ping pong, you can finish the afternoon with a drink at the bar. Before or after the hearty breakfast included in the price of your room, you can start the day with a yoga session in the dedicated area of the gym or make an appointment for a massage with **La Cigalière de Sitges'** partner masseur. For your meals you can use the indoor and outdoor kitchens at your disposal or have them delivered by the restaurants which are right next to the resort. The hosts do not do table d'hôtes but they organize a meal by the pool every week, in season. Guests come from all over the world, couples and singles, of all shapes and sizes, of all generations and of all skin colors. And you simply take your time to relax in the Mediterranean and tropical garden of 3000m2 out of sight ...

Many of the boys who have stayed at **La Cigalière de Sitges** intend to return and many have already returned. Simplicity, authenticity and friendliness are the three words that come up most often. The quality of the bedding, the decoration of the rooms and the services offered are also appreciated by almost every guest. The overwhelming friendly hosts Alain and Nicolas live in on-site all year round and they are able to advice you on discovering the region.

The rates are adapted and in accordance with the local market so that everyone can, according to these incomes, benefit from all the equipment: Means good value for money!

Conclusion: **La Cigalière de Sitges** is the perfect spot in a benevolent bubble or the pleasure of being with friends where you can relax in confidence and without judgment. You may also be able to meet and interact with guys from the region or dive in and enjoy the nearby gay vacation destinations.
